

BRITISH STEAMER COMES HEBE WITH MYSTERY

Lying at the Channel Wharf yesterday was a trim steamer of a good size flying the British flag, which came into port early in the morning from London. Now comes the mystery, for, although the officers say they were going to Manila, and the crew say they were shipped for that port, it is underatood along the waterfront that the steamer is en route to Japan, and that under her decks can be found all man-ner of munitions of war, including dynamite. The steamer is the Rich-mond, commanded by Captain Nich-

On the deck of the vessel are two torpedo boat shafts, and this in itself is sufficient to guarantee that all be-low decks is material for the Japanese armies and navv.

The vessel put into Honolulu for coal. She was coaled rapidly and departed for her destination last evening at 7:30

At the foremast a small red flag is flown. This indicates explosives aboard. Being a British vessel from an Eng-lish port she is not likely to be carry-ing munitions of war to an American port. It is a significant fact that the port. It is a significant fact that the S. S. Dulwich, sister ship to the Rich-mond, carried war supplies to Japan

Brought Koa Lumber.

The Inter-Island steamer Mauna Loa arrived yesterday morning from Kau, Kona and Maui ports with twelve eabin and 86 deek passengers. The vessel met with rough weather outward bound, but experienced fairly good weather inbound. The Mauna Loa brought 7395 bags of sugar, 62 bags of coffee, 76 bunches bananas, 56 bales hides, 45 bags taro, 30 head beef cattle, 23 pigs and 500 feet of koa lumber for Lewers & Cooke.

The others report the forest fires on Hawaii had gained. They saw along

the Kona coast a strip of about three miles burning. The koa forests have not been touched thus far.

Among the passengers were Circuit Judge Matthewman of Kailua, and W. Austin and George B. Frazer, both interested in the Hawaiian Agricultural Company. Tourists from the volcano say the fires have gone down and there is little or no activity.

School of Whales.

Passengers on the steamer Mauna Loa which returned yesterday from Hawaii and Maui ports, saw nearly fifty whales disporting themselves in the Molokai and Maui channels. Three whalers were in port last week, departing for the South Seas, just mis. U. S. S. Bear, Hamlet, March 6. sing the fortune.

Lost in a Gale.

Information from Hilo has reached High Sheriff Henry that during a gale off the Hilo coast recently a number of Japanese fishing boats were wrecked, and three lives lost.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which docors give many names, but which few of them
really understand. It is simply weakness—a
break-down, as it were, of the vital forces that
mustain the system. No matter what may be
its causes (for they are almost numberless),
its symptoms are much the same; the more
prominent being alocplesaness, sense of pros
tration or weariness, depression of spirits and
want of energy for all the ordinary affairs of
itie. Now, what alone is absolutely easential
in all such cases is INCREASED VITALITY—
rigour—VITAL STRENGTH AND ENERGY to
throw off these morbid feelings, and experience
proves that as night succeeds the day this may
be more certainly secured by a course of the

than by say other known combination. Bo surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored, the EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worm-out, "used up" and ralseless. This wonderful medicament is purely vegetable and innocuous, is agreeable to the isate-suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it for this widespread and numerous class of buman aliments.

IT IS WRON TO THE BOY

Tucker How Young Struggled to Win the Cadetship.

The Delegate to Congress has done a few things, and has not done a great many more-but he has done nothing that has caused quite so much adverse comment as his selection for appointment to West Point of the boy who passed fourth in the competitive examination called by Kuhio himself, making the boy who passed first in both the West Point and Annapolis examinations alternate, and overlooking altogether the boy who passed sec-

ond in both examinations. "It is most outrageously unfair," sald Secretary Atkinson yesterday. "We are trying to give everybody a square deal in this country. The Delegate, by this action, goes to work and undoes in a moment the effect of months of effort. And that to say nothing of the effect of such unfairness upon the mind of the boy himself What is left to the boy if he cannot trust to the promises of men in high position? The calling of that exam ination was the work of the delegate Why did he call it, getting the boys to enter into the competition, if he intended, at the end of it, to appoint a

certain boy anyway?"

And that was the tenor of most of the talk yesterday. There would have Mrs. Dr. M. Barry, Mrs. C. H. Smith, been no disposition to question the Jared G. Smith. Miss R. Reed, Mrs. H. right of the delegate to pay any political debt he liked with an appointment to a cadetship to West Point or Annapolis. That is his right, under the law. But why call a competitive examination, exciting in boys hope that he did not intend to gratify, if a certain boy was to get the place in any It was a bit of absolutely needless and most heartless cruelty. Can it be possible that the fact that young Tucker is a white boy, and Lyman is a half white was taken into the consideration and made a deciding factor? It would be a strange and most ominous circumstance, if that were true—a matter for the serious

consideration of people on the main-Young Tucker, who passed first in both examinations, and who by all right should have had choice of whichever suited him, West Point or Annapolis, seems to be a most deserving as well as a clever lad. He is the only son of a widow, who by hard and untiring industry has raised her boy to be a frank, honest, manly lad, with a spirit of helpfulness toward his mother that is greatly to his credit. The boy, according to Prof. Scott, of And 3 deck.

In fact, it was by his mother's desire that he staid in chool, very largely, although he was himself ambitious to get a first class education. The boy himself wanted to go to work, giving up his ambition, to help his mother. She was willing and as yet able to work for him, and both mother and son had looked on this chance at West Point or Annapolis as the boy's opportunity to get the higher education that Tucker wanted, and his mother wanted him to have. And everybody knows how that chance has gone.
